

Convention

In March we had a very special convention in Munich but the one on September 23 and 24 in Frankfurt was even better. I think highly of the attitude of the Corporation their vision and their mission. Braam Malherbe (<http://www.braammalherbe.com/adventurer/great-wall-of-china/>) had a talk about his goal in life that one can reach anything if ones vision is clear and when ones goal comes from the heart.

“IT’S NOT JUST ABOUT HOW MUCH KNOWLEDGE YOU HAVE; IT’S WHAT YOU DO WITH IT.”

-Braam Malherbe

Impressive how someone can be so ‘crazy’ and does this for a smile of a child (that since birth lives with a schizis and preferably hides as it realizes that it has an ugly/scary face), to generate money. He ran miles along the South-African coast or the 4200 km long track (a marathon each day) along the Chinese wall, starting at the Gobi where only traces of the wall remain!

These 2 photos of Brandon (before and after the operation in Cape Town) who can envision a better life. This is to thank the ‘Smile Foundation’ that support the families of these children, with help of people like Braam and some doctors who volunteered to do these operations pro bono.

The German dermatologist Dr Sabine Zenker, who by accident received a tube Renu28 from a ‘Goody Bag’, told how she went searching. She discovered the benefits for herself of the ASEA products and is now advising all her patients to use the products.

News

The new skin care line launched on the American market in May, has been announced available in Europe too on the Frankfurt conference.
