

News

February 17 we were in Stuttgart for the yearly ASEA convention in Europe. Beside that it is nice to meet our Dutch team members and our German colleagues, it is always special to be inspired by Tyler Norton, one of the founders, and to hear him speak. 'Why' they took the initiative to put these products on the market worldwide, remains a beautiful story. Would you like to hear the genesis of this company listen then to Verdis Norton, Tyler's father, and his reason!

This is my why to promote these products :
[Helping people regain their health.](#)

"Many people say that ASEA is the biggest innovation since the discovery of DNA. Something I know for sure that there has not been a product that can rejuvenate the cells of our body in a natural way.

It is not a juice, not a medicine and not a supplement in the traditional way. It is the marriage between science and nature, completely "NATURAL to the BODY".

ASEA protects the cells of our body, it detects damaged cells and it signals to have the cells repaired or replaced. I knew our body has a great self-restoring power and that its ability to do so diminishes over the years. Now we can restore this ability partially. Many people suffer from all kinds of health issues that not only influence their own lives but also that of their relatives. We heard stories from all over the world that people had severe health issues who had big releases because of ASEA, before those issues seemed impossible to be solved. Many know me as open and honest and I would not think of writing these things if I was not sure of the people I met.

ASEA is and will be causing a giant shift in our health and I will be a witness and you could be too, taking this journey with me.

OMNIFIT, kijk op gezondheid

Agenda

Soon we will have our national ASEA event in Utrecht. I would like to invite you (and please take a friend with you) to come to Utrecht on March 27 for this open presentation. While enjoying coffee or tea you can taste and experience the product without charge and listen to the people that already have experienced it themselves or with their relatives. And beware :

A POWER WOMAN IS VISITING US / DO NOT MISS IT!

Please **register** by ringing me or sending me an e-mail.

27 March

Free entrance!

Doors open 19.00 - Start presentation 20.00 hr.

Carlton President Hotel, Floraweg 25, Utrecht

This is Trish Schwenkler (Canada), she started as a housewife and at that moment her husband was laid off; now she is a top earner in ASEA. I have met her, she is a real POWER-WOMAN.

She is still the housewife, easy to talk to, and at the same time very powerful. She shows enthusiasm, passion, knowledge and experience. I think she is extraordinary AWESOME! It is wonderful that she is coming to The Netherlands and YOU CAN BE PART OF IT!

Would you like to hear more about Trish and her explaining ASEA watch this video :

<https://www.youtube.com/watch?v=8A44lrMBk2c>

I would appreciate it to meet you there!

If you cannot be there we always can meet at my home where I can inform you about ASEA. Please view my website where I will be posting the Calendar for the following quarter soon.

With warm regards,
Leonie van den Berg
